## Objectives / investment policy

The objective of the fund is to achieve a long-term capital accumulation and growth through a diversified actively managed portfolio. By means of a dynamic asset allocation structural changes (demography, interest rate environment, changing role of economies and technologies, currency shifts, super cycles etc.) are to be exploited in an optimal way.

The fund invests, directly or indirectly, max. 70% of the assets in equities and holds at least 30% in liquidity, bonds or financial instruments linked to the performance of precious metals (excluding the right on a physical delivery).

## Risk return profile

This risk indicator is based on historical data; it is therefore not possible to predict future performance. The Fund's risk classification may change at a later date and may not be considered a guarantee. Please note that even a Fund with a Category 1 classification does not constitute a completely risk-free investment.

This fund has been placed in category 4 because its price is subject to medium fluctuations and therefore has the chance of

## Overview of all share classes
